Application Training**

'How to Apply' Training for the CDBG-Infrastructure Program

***One Virtual Training Time Available via WebEx:
Wednesday, May 5, 2021 (9:00 a.m. – 12:00 p.m.)***

The Division of Water Infrastructure in the N.C. Department of Environmental Quality is offering application training for the Community Development Block Grant – Infrastructure (CDBG-I) program's Fall 2021 funding round.

All applications must be received by the Division no later than close of business on September 30, 2021.

If you are considering applying for funding related to the CDBG-Infrastructure program, the Division of Water Infrastructure encourages you to attend this training session.

If you cannot attend training, division staff will be available to meet virtually on an individual basis prior to the application submittal deadline.

We anticipate approximately \$25.5 million to be available for funding. Training materials (application guidance, PowerPoint presentation, etc.) will be available on the [Division of Water Infrastructure's CDBG-I web page](#) closer to the training date.

Please RSVP to Colleen Simmons at colleen.simmons@ncdenr.gov, and provide your name, community or company, email address and phone number. Upon receipt of your RSVP, you will receive a WebEx invitation to the training. Please do not share the WebEx link with others so that we can keep track of those attending.
